

`Point::operator+=`

```
graph LR; A[Point::operator+=] --> B[Point::getX]; A --> C[Point::getY];
```

The diagram illustrates a pointer relationship between a C++ operator function and two member functions. On the left, a gray rectangular box contains the text `Point::operator+=`. Two blue arrows originate from the right side of this box. The top arrow points to a white rectangular box containing `Point::getX`. The bottom arrow points to another white rectangular box containing `Point::getY`. All boxes have black borders.

`Point::getX`

`Point::getY`
