

Include/circle.h

```
graph BT; Src/circle.cpp --> Include/circle.h; Src/shapefactory.cpp --> Include/circle.h;
```

A diagram illustrating file dependencies. At the top is a gray rectangular box labeled 'Include/circle.h'. Below it are two white rectangular boxes: 'Src/circle.cpp' on the left and 'Src/shapefactory.cpp' on the right. A blue arrow points from 'Src/circle.cpp' up to 'Include/circle.h', and another blue arrow points from 'Src/shapefactory.cpp' up to 'Include/circle.h'.
